Address Hoa Son, Hoa Vang, Da Nang,
Viet Nam

Overview

- 3+ **years of experience** with ReactJS and Next.js
- Proficient in HTML, CSS, JavaScript, and TypeScript
- Deep understanding of React principles and best practices
- Extensive experience with popular React workflows: Redux, Tanstack (Query & Router), Ant Design, Material UI, Styled Components, Chakra UI, Radix UI, and various unstyled libraries
- Experience customizing UI components with styled-components and similar libraries
- Strong proficiency in JavaScript fundamentals, including DOM manipulation and the object model
- Familiarity with modern EcmaScript features
- Proficient in Git version control (GitLab, GitHub)
- Experience with pre-commit hooks using Husky and lint-staged for automated code linting
- Working knowledge of Rust programming language
- Comfortable using Linux (Ubuntu, OSX) and Windows operating systems
- Quick learner with a strong ability to adapt to new technologies
- Location: Ha Noi, Viet Nam

Work experience

12/2022 – Present

VietSoftware International - React Developer

Experience:

- Over 3 years of experience developing React applications, contributing to 6+ company projects.
- Strong foundation building: Constructed reusable base components across various projects.
- Diverse project involvement: Participated in projects ranging from AI-powered object recognition to payment processing and international landing pages.

Project Highlights:

- **AI Object Recognition Project:**
 - Built core components for the application.
 - Developed login and form functionalities.
 - Technologies used: ReactJS, react-router, socket-io, Radix UI, Tailwind CSS.
- **Payslip Delivery Project:**
 - Created base components and payment page with Ngân Lượng integration.
 - Technologies used: NextJS, next-i18n-router, Material UI.
- **Landing Page Projects (4+):**
 - Developed multiple international landing pages using NextJS with i18n support.

04/2022 - 11/2022

Rikkeisoft Corporation - Full-Stack JavaScript Developer

Experience:

- Full-stack development experience gained through participation in 2 projects.
- Strong front-end and back-end capabilities: Proficient in building user interfaces, data fetching, and backend logic integration.

Project Highlights:

- **SaaS-based HRM Project:**
 - Developed core functionalities like forms, login, and data fetching with ApolloClient.
 - Contributed to backend development tasks.
 - Technologies used: NestJS, MySQL, GraphQL, ReactJS, Ant Design.
- **Educational Management & Statistics Project:**
 - Established the foundation of the front-end, including project setup and folder structure.
 - Technologies used: ReactJS, Material UI, Redux.

06/2021 - 03/2022

Unitech Corporation - Java Full-Stack Developer

Experience:

- Full-stack development for internal digital transformation project.
- Experience modernizing legacy systems: Effectively worked within an existing system, contributing to its modernization.
- Expertise in both server-side and client-side development: Developed APIs using Java Spring Boot to handle data processing and utilized ReactJS for the user interface.

Technical Skills:

- Java Spring Boot
- ReactJS
- PostgreSQL

Education

10/2020 - 05/2021

CodeGym Academy

- **Full-Stack Development Program** (Year of Completion)

Skills

Front-End Development:

- HTML
- CSS
- JavaScript (including libraries like jQuery, ReactJS, and NextJS)
- Figma (for UI/UX design)

Back-End Development:

- Node.js (including frameworks like ExpressJS and NestJS)
- Rust (including frameworks like Axum)

Data Management:

- RESTful APIs
- GraphQL
- Databases (MySQL and PostgreSQL)

Version Control:

- GIT(gitlab, github).
- SVN
